Vivemos numa era em que os acontecimentos já não se sucedem: colidem. Entre a geopolítica em tensão e a tecnologia em aceleração, o mundo parece cada vez mais uma equação sem solução estável.

Ao longo da semana, o noticiário internacional voltou a mostrar um planeta instável, nervoso e fragmentado, enquanto a frente tecnológica prossegue, quase indiferente ao ruído político, na sua marcha de transformação acelerada. O contraste entre a lentidão das decisões humanas e a velocidade das mutações técnicas torna-se cada vez mais evidente.
